

FH MÜNSTER
University of Applied Sciences

Dear Partners!

Greetings from FH Münster! We hope this email finds you well.
We are delighted to inform you that there will be summer schools onsite
at FH Münster University of Applied Sciences this year.
Please feel free to distribute this information to your professors and
interested students.

Renewable Energy Systems

From **August 29th - September 9th, 2022** the summer school "Renewable Energy Systems" will take place. Professors of several engineering departments of FH Münster will talk about the most **important trends and topics** concerning renewable energy systems. On our [website](#) you can find the updated information and programme.

Sustainability, Nutrition and Culinary Studies

Have you ever wondered **how to combine a sustainable lifestyle with healthy diets and food culture?** Then team up from **September 5th - 9th, 2022** with students and researchers from all over the world and discuss sustainable and healthy diets that are also tasty. All information can be found

on our [website](#).
