

2015 BBSRC TAIWAN PARTNERING AWARDS CALL GUIDANCE NOTES

Call Opens: 15th September 2015

Call Closes: 12th November 2015

BBSRC is pleased to invite applications to its annual call for Taiwan-UK International Partnering Awards, aimed at fostering links between researchers in the UK and Taiwan. This is a joint call run with the Ministry of Science and Technology, Taiwan (MOST). The deadline for applications through JeS is **16:00 Thursday 12th November 2015**. Successful awards will be announced in early 2016 and should expect to start after 1st April 2016.

Applications are invited from current BBSRC research grant holders and researchers employed at National Institutes of Bioscience, who are in receipt of BBSRC research funding.

BACKGROUND

BBSRC's International Relations Unit (IRU) seeks to enhance BBSRC's influence and involvement at the forefront of international science, to exploit international funding opportunities in the interests of BBSRC's scientific community and to capitalise on international links, both at policy and scientific levels. It achieves this through a number of mechanisms.

Partnerships with Taiwan are producing benefits to the UK and the BBSRC community. It is therefore important that BBSRC continues to try to ensure that strong linkages are developed and sustained in the biosciences.

In 2012, BBSRC launched its first joint call with Taiwan National Science Council (NSC) for Taiwan-UK Partnering awards (TWUKPA). NSC has now reorganised into the Ministry of Science and Technology (MOST). Funding of up to £25,000 for UK researchers and the equivalent for Taiwanese researchers will be provided over a two year period to support the development of fruitful collaborations between leading UK laboratories and their Taiwan partners.

PURPOSE

The overarching aim of the Taiwan Partnering Award scheme is to provide resources to leading BBSRC supported research groups which allow them to forge long-term relationships with Taiwan scientists in areas of research that are of direct relevance to BBSRC's current scientific strategy. It is hoped that the long-term partnerships established through partnering awards will lead to the development of new collaborative research programmes.

The purpose of the Taiwan Partnering Award is to provide pump-priming funds for building new links with Taiwan scientists which will add value to existing BBSRC funded research grants. Specific objectives that underpin the Taiwan Partnering Award scheme are:

- To establish partnerships between UK and Taiwan research laboratories.
- To promote the exchange of scientists, particularly early career scientists.
- To promote access to facilities.
- To enhance food security; bioenergy and industrial biotechnology and basic bioscience underpinning health research in the UK and Taiwan.

SCOPE

Under this scheme, BBSRC supports the UK researchers within a partnership, while MOST supports the Taiwan researchers. Awards will be made to the UK applicants by BBSRC of up to £25,000 over two years. Awards for Taiwan researchers will be up to NTD 1,200,000 from MOST over two years. Awards can be used to fund the following collaborative activities in emerging areas of science relevant to BBSRC's strategic priorities:

- Travel for one or more investigators in either direction
- Visits/access to facilities
- Scoping studies
- Workshops and networking
- Researcher exchanges
- Other collaborative activities

Collaborative activities are not limited to the PI and we encourage the involvement of early career researchers. Partnering award funds can also be used to support student exchanges however applications will not be accepted where this is the primary aim of the project.

Funds must be used in the principle of equivalence, for example: UK funds will be used for the travel costs to Taiwan and the hosting of Taiwan visitors to the UK (including UK conference, hotel and other costs). Taiwan funds will be used for the travel costs of Taiwan researchers to visit the UK and the hosting of UK researchers in Taiwan.

It is acceptable for the proposed partnering award to outlast the associated research grant however the **associated BBSRC grant must have started before the application deadline and must have at least 6 months remaining from the start of the award.**

Partnering awards are not a vehicle for supporting single research projects and these awards cannot be used to fund:

- Salary costs
- Consumables
- Items of equipment
- Other research costs
- Conference attendance*

*For convenience and cost efficiency BBSRC do allow award holders to arrange collaborative meetings alongside conferences at which their partners are already present. However the award funds cannot be used to pay for the additional conference accommodation and costs.

Please note that the funding should be seen as a pump-priming award and that research

groups will be expected to access other sources of funding. This could include a monetary contribution from the applicant's institution or department or an in kind contribution such as venue hire or accommodation costs.

ELIGIBILITY

Applications must be made by a Principal Investigator (PI) who is currently in receipt of BBSRC research funding. **In addition the associated BBSRC grant must have started before the application deadline and must have at least 6 months remaining from the start of the award.**

APPLICATION PROCESS AND ASSESSMENT CRITERIA

Timetable

Call opens	15 th September 2015
Closing date for proposals	12 th November 2015
Assessment of proposals	January-February 2016
Grant awarded and project start	Awarded early 2016, to start after 1 st April 2016

The UK and Taiwan partners are required to submit separate applications. Within each proposed collaboration, the UK partners must submit an application to BBSRC, while the Taiwan partners must also submit an application to MOST. Applications which are submitted only to BBSRC or MOST will not be accepted.

Taiwan applicants should consult MOST for up to date details of their application procedure.

For all UK applicants, applications must be made through the Research Councils Joint Electronic Submission System (JeS). In addition to the JeS proforma, the application should also include the following attachments:

Case for Support

The case for support should be a maximum of 3 sides of A4 written in single spaced Arial, Helvetica or Verdana typeface font size 11 and margins must not be less than 2cm. It **must** contain the following sections:

- The main scientific objectives.
- Summary of previous contact or links with proposed partners.
- Details of the work to be carried out.
- Statement of added value: Indicate the benefit of the proposed collaboration to UK science and in particular, the relevance to your current BBSRC funding.

Applications must demonstrate how this award will add value to BBSRC science (in particular their associated BBSRC research grant) and facilitate longer-term collaborations between UK and Taiwan.

Work plan

A Gantt chart or diagrammatic action plan which outlines the activities and timelines for the work to be carried. Maximum 1 side of A4.

Additional Documents

CVs and publication lists are not required; however applicants may wish to include any particularly pertinent recent publications. A letter of support (maximum 1 side of A4) from, for example, the proposed collaborators and a short proposal covering letter may also be included but are not mandatory.

Costs

Applications should be made at **current costs** in accordance with subsistence and travel regulations at the applicant's Institution. For each main activity, indicative costs should be shown. BBSRC may index approved costs so awards made will include an allowance for inflation. Any award made will be cash limited, and whilst funds should be used for the activities requested, the use of funds to allow activities that were not originally envisaged will be allowed as long as they are in pursuance of the overall objectives of the TWUKPA and within the guidelines. No indirectly incurred costs can be applied for under the TWUKPA scheme; consequently Full Economic Costing (FEC) is **not** applied to these awards. Applicants should therefore apply for 100% of the cost of the activities which they wish to undertake.

Submission of UK Applications

Detailed guidance on how to complete the JeS application process can be found in **Annex 1**. Applicants should refer to proposal checklist in **Annex 2** before submitting their application through JeS. The deadline for submission of applications through the JeS system is **16:00 Thursday 12th November 2015**.

Assessment Criteria

UK applications are assessed internally by BBSRC and Taiwan applications by MOST. Internal assessment of these proposals allows partnering award applications to be processed swiftly and in proportion to the size of the awards. An internal review process can be applied as the applications are based on awarded BBSRC grants which have undergone robust peer review. Proposals will be assessed against the following criteria:

- The value added to BBSRC science through the partnership by enhancing priority areas
- The benefits and future joint research likely to accrue from the collaboration
- The uniqueness of the opportunity and expertise of the Taiwan partners
- The opportunities for exchange of scientists, particularly early career scientists
- Whether the collaboration is a new linkage or an on-going partnership (if collaboration is on-going, what new aspects are brought to the partnership)
- The level of the contribution made by the UK Institution towards the development of the award
- Alignment of the award to current BBSRC strategic priorities

Applicants should refer to BBSRC's Strategic Plan and International Strategy for further information on BBSRC's strategic priorities.

Taiwan applications made to MOST will be assessed to similar criteria. BBSRC and MOST will jointly agree on selected projects for award from these assessments.

GRANT MAINTENANCE

All grant maintenance requests (e.g.: grant extension request, extension to start date, transfer of organisation) should be made via the Grant Maintenance facility in JeS.

All requests for extensions must be made once the required duration is known and before the grant ends.

Further information can be found at <https://je-s.rcuk.ac.uk/Handbook/Index.htm>

REPORTING REQUIREMENTS

All Grant Holders must use Researchfish to record key findings and specific outputs from their grants. Grant Holders can enter information into Researchfish at any time throughout the year and submit during the annual data gathering period.

For International Partnering Awards BBSRC expects the following sections in Researchfish to be completed as a minimum requirement:

- Key finding
- Collaboration
- Secondments and placements
