Ref. No.: 182/KG/mk
Athens, 8 March 2016

Dear Prof. Hsu,

The International Olympic Academy (I.O.A.) has the pleasure to inform you that the **23rd International Seminar on Olympic Studies for Postgraduate Students** will be held in Ancient Olympia from the 1st of September (arrival in Athens) to the 30th of September 2016 (departure from Athens).

The Postgraduate Seminar is a forum for studies on the "three pillars" – the Olympic Movement, the Olympic Games and Olympism. These studies involve both Ancient and contemporary Olympic issues. The special subject of the 23rd International Postgraduate Seminar is **«Olympism in praxis: The environmental protection.»**

The seminar is entering its twenty-second year and has proved a unique catalyst in the domain of Olympic studies. Professors from all over the world, specialised in Olympic Movement issues, contribute to the works of the Seminar.

The Seminar is divided into four periods or cycles:

- a) The Ancient Olympic Games and their philosophy.
- b) The modern Olympic Movement, the revival of the Olympic Games and the history of the modern Olympic Games.
- c) Olympic Education and socio-political aspects of the modern Olympic Games (media and communication, management, organisation and marketing).
- d) The ethical and philosophical issues of Olympism as well as the athletes' rights in the modern Olympic Movement.

In this respect, we would really appreciate it, **if you could recommend to the I.O.A. one candidate student the soonest possible**, and in any case, no later than the **8th of April 2016**. Only thirty five (35) students from all over the world will be selected by the Ephoria of the I.O.A. for the 23rd Postgraduate Seminar. Candidates should be up to 45 years of age.

For all these reasons, we need to have the student's detailed **Curriculum Vitae with two passport-size photos, a copy of his/her passport or ID, a recommendation letter by his/her Supervising Professor, the Olympic topic the student does research on, a two-page summary analysing the topic of the paper and a list with the titles of any publications all in English as well as official certificates demonstrating the proficiency of the applicant in English** by the **8th of April 2016 at the latest**. The final decision will be announced to the selected students around the **beginning of May 2016**.

The participants will be selected according to their qualifications, the topic of their paper, the country as well as the cultural background they come from. Moreover, priority will be given to the participants that are recommended by the NOCs and the NOAs.

Accommodation and boarding expenses for the selected students both in Athens – upon arrival and departure – and in Olympia – throughout their stay there – will be covered by the I.O.A. Travelling expenses, however, should be covered by the students themselves.

English will be the sole working language of the Seminar. **It is, therefore, essential that all Participants have a perfect grasp of both spoken and written English.**

Candidates must be postgraduate students from all scientific fields involved in scientific research on Olympic and sports issues. Please, do your best as far as the selection of the candidate is concerned. The candidate should possess the necessary scientific and academic qualifications to present a scientific paper – no more than eight (8) pages long – related to the Olympic Movement, which will be incorporated in a special report to be published by the I.O.A. The student must have completed and sent his/her paper by the **27th of May 2016**.

Students will have fifteen (15) minutes at their disposal to present their papers.

For any further information, please, contact the IOA Secretariat at the following number:

Tel.: + 30. 210.6878812, Fax: + 30. 210.6878840, email: **m.katsadoraki@ioa.org.gr**.

In anticipation of your most valuable cooperation for the success of the Seminar, I remain,

Sincerely yours

Isidoros KOUVELOS
