

## **Virtual Summer University 2021: In Transition to a Pure Green Energy Economy**

Hochschule Darmstadt will be offering a **virtual International Summer University** on the topic of “**In Transition to a Pure Green Energy Economy**” from **July 4 – 17, 2021**.

### **Course Content:**

The prospects of an energy system and a whole economy relying solely on **renewable energy** are the focus of our virtual summer school. The International Summer University Darmstadt brings together technical and business perspectives and focuses especially on three challenges on the way towards a green energy economy:

- 1) **Transforming supply:** Technology as driver for real competitive renewable energies.
- 2) **Transforming demand:** Smart homes and smart cars for smart people.
- 3) **Transforming business:** Strategic impacts for business models.

### **Planned virtual site visits:**

- EUREF-Campus, Berlin: A real-world ‘laboratory’ for the energy revolution with over 150 companies and startups working on the campus area with its own, innovative and CO2-neutral energy concept
- BMW Welt, Munich: BMWi exhibition: BMW’s vision of the future of mobility with pure electric vehicles and autonomous driving

More information can be found in the **attached module description**.

### **Course Information**

Students can earn up to **6 ECTS** for the successful completion of the module. Students are expected to attend the academic module and a tutorial every day via an online video conference system. In addition, a paper is due two weeks after the program.

### **Participants:**

We welcome motivated advanced undergraduate and graduate students from all over the world with an academic background in business administration, energy management, industrial engineering, electrical engineering, environmental engineering, civil engineering, renewable energy engineering, or

related disciplines. If you have interested students from other academic disciplines, please get in touch with me.

#### Fees, Nomination and Application

We can offer **2 free spots** per partner university. For any additional students, the program fee is **100 Euro**.

Registration is now open, and the application deadline is **May 31, 2021**.

Students must be nominated by their International Office and have to apply online via our website.

#### Online Info Session:

We will be offering an online info session for both students and staff who are interested to learn more about the program. It will take place on **March 17, 2021 at 8am and 4pm** (Central European Time). Here is the link to the session: <https://h-da-de.zoom.us/j/92921901895>

I would be very grateful if you spread word about the event within your institution. There is a poster attached to this email that you can also forward to anyone who is interested in the program or post on your websites or student platforms.

For more information, please visit our website <https://isu.h-da.de/> or write us an email: [isu.int@h-da.de](mailto:isu.int@h-da.de)

We look forward to having your students with us for the virtual International Summer University 2021!

Best regards  
Jessica
