

# International PBL Event Announcement

*Participating Universities Include  
University System of Taipei and Osaka Institute of Technology*

# 2021

Hosted by Taipei Tech

## Tentative Date of Event:

August 17, 2021 - August 24, 2021

## Proposed Location:

Taipei Tech in Taipei City

## Event description:

We are looking to launch the International Problem Based Learning (PBL), a cross-border interschool event, with Taipei Tech as the host university this late August. Students from multiple universities, including the University System of Taipei in Taiwan, and Osaka Institute of Technology in Japan, will come together through real-time virtual participation where they will get to form teams with each other to compete for their proposal based on the topic given by the host. Topics for the past years involve such areas as human-like robots and aerial rescue. For more information on results from the past competition, please also check out the following links:

2015 Highlights <https://www.youtube.com/watch?v=JU7c8J3bwWg>

2017 Highlights <https://www.youtube.com/watch?v=lyAmn7xUptg>

2019 Highlights <https://www.youtube.com/watch?v=jthDyxPGIME>

## Participating Eligibility:

The event mainly targets all current undergraduate and graduate students, regardless of class year, whose major is in fields relating to the Engineering, Mechanical and Electrical Engineering, Electrical Engineering and Computer Science.

We plan to select 24 successful candidates from the pool for participation of the competition this year. These selected students will also gain an edge to be shortlisted to participate in the PBL-related activities held overseas in the following years.

**Please click in the link below to apply!**

**Deadline for registration until 31 May, 2021.**
