

ÉTS AT A GLANCE

ÉCOLE DE
TECHNOLOGIE
SUPÉRIEURE

Université du Québec

ÉTS

Le génie pour l'industrie

Largest engineering school in Québec, and second in Canada, for the number of undergraduate diplomas each year

Fastest growing university in Canada, 2nd in Canada for research financing

Over 60% of our graduate students are from abroad

Women make up more than 25% of our graduate student population

60% of our research is focused on industrial applications and technology transfer

Our CENTECH business accelerator program was ranked in the top 10 around the world for 2017-2018 by UBI-Global

Our third-party survey shows that our alumni have higher earnings compared to other universities

Montreal - with ÉTS in its downtown core - was named North America's best student city by QS in 2018

APPLIED ENGINEERING AT THE CROSSROADS OF EUROPEAN CULTURE AND NORTH-AMERICAN EXPERIENCE

Our DNA

- ✓ Work/Study program
- ✓ Applied research
- ✓ Technology transfer/Industry partnerships
- ✓ Entrepreneurship

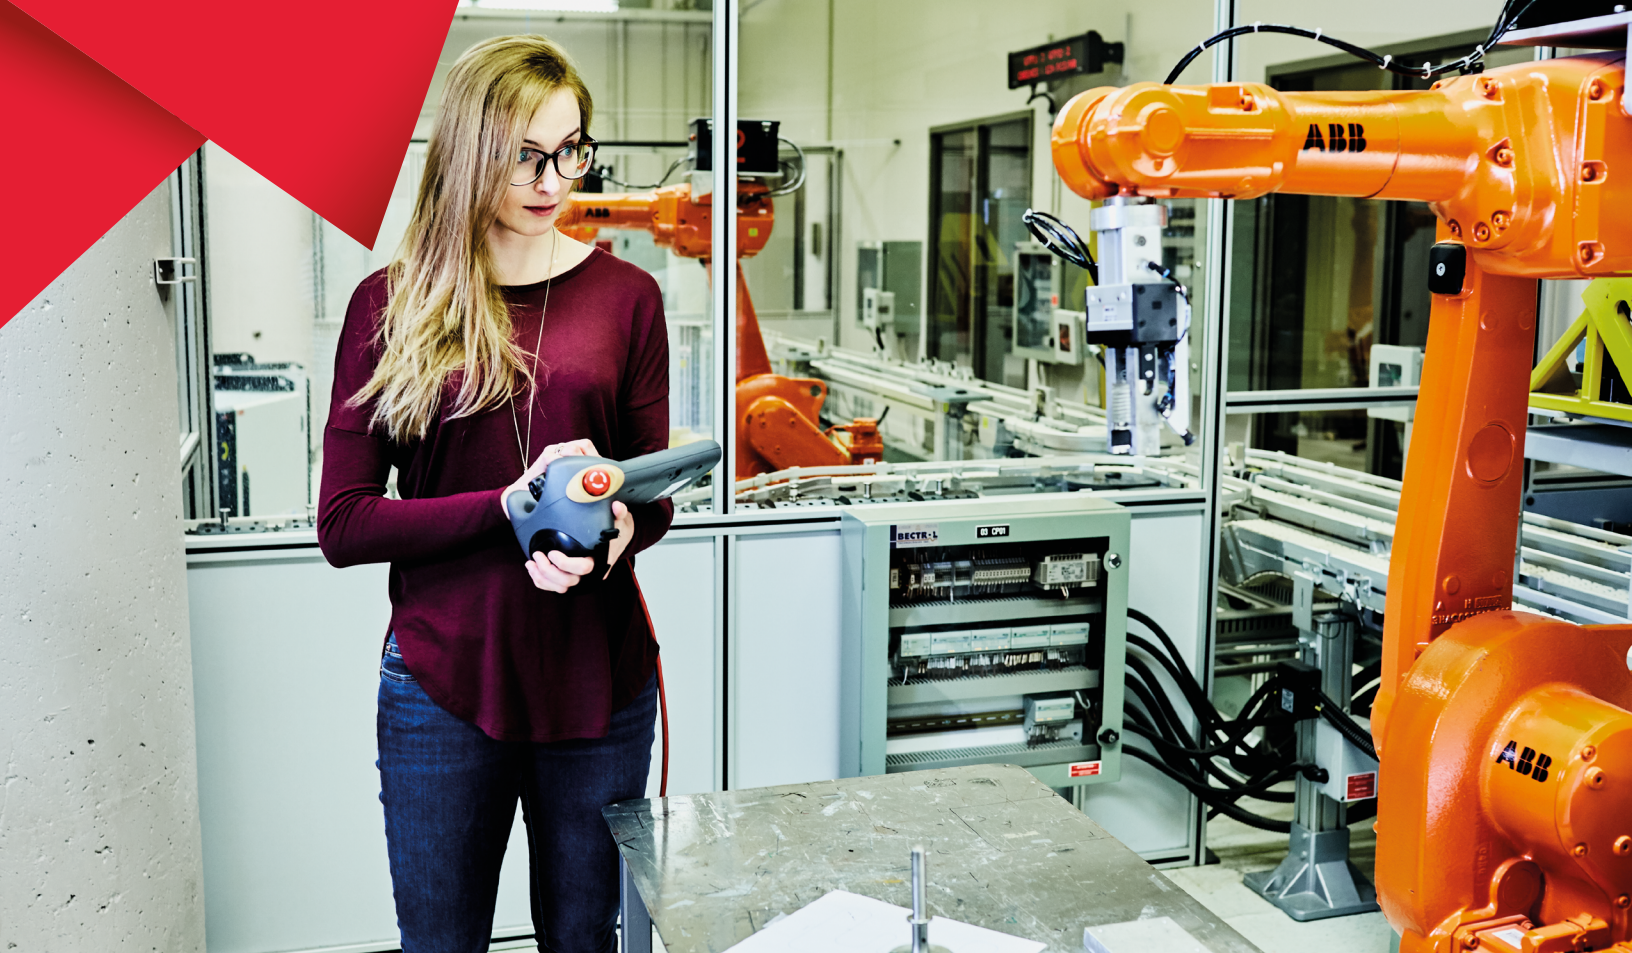

Undergraduate Studies

7 Programs in 5 Departments

- ✓ Electrical Engineering
- ✓ Mechanical Engineering
- ✓ Construction Engineering
- ✓ Automated Manufacturing Engineering
- ✓ Operations and Logistics Engineering
- ✓ Software Engineering
- ✓ Information Technology Engineering

Tuition and Financial Aid

- ✓ ÉTS tuition fees are significantly lower, compared to the rest of Canada/North America.
- ✓ We have partnerships with many universities around the world, often allowing students to pay their tuition fees in their country's currency.
- ✓ ÉTS offers opportunities for financial aid: tuition waiver, merit and many other scholarships. See the monthly newsletter, [Info Bourse\\$](#) to know about all available scholarships at ÉTS.

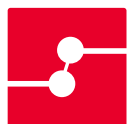

Graduate Studies

Two Types of Master's Degrees

- ✓ M. Eng. (in French, with project) or
- ✓ M. A. Sc. (in French or English, with research thesis)

Focus Areas of our Doctorate (Ph.D.) Program

- ✓ Aerospace and land transportation
- ✓ Energy
- ✓ Environment and construction
- ✓ Healthcare technologies
- ✓ Information and communications technologies (ICT)
- ✓ Materials and manufacturing

Keeping in touch with Research and Innovation at ÉTS

Encourage students to subscribe to SUBSTANCE, our scientific news and innovation platform, followed by over 27,000 subscribers around the world.

A Campus Designed with Students in Mind

Our student housing can accommodate over 1100 people in studios as well as 1 to 4-bedroom apartments. Our flexible rent policy allows putting rent on hold while going away on an internship/exchange program.

ONSITE	NEARBY
