Spørg

Velkommen...

This guide is intended for people who enjoy expanding their knowledge while at the same time, like to see new places, discover new cultures and make new friends from all around the world. If that sounds like you, then we cordially invite you to become an Exchange Student, at the University of Southern Denmark. More commonly known as Syddansk Universitet (SDU).

By choosing SDU you will become part of a lively international student environment. Each year more than 1500 international students choose to study at the University, which has more than 500 exchange agreements with partner institutions across the world. As an exchange student you can:

Enjoy Easy Communication

Many courses at Master and Bachelor level are taught in English, so you can get by without Danish, both in and out of the classroom.

Make New Friends

1 in 5 of our students come from outside Denmark, so you will get to know not just Danes, but people from all over the World.

Benefit from International Experience

By being an Exchange Student in Denmark, you will equip yourself with a range of skills and experiences that will increase your employability.

Enjoy Quality in Education

World class resources and dynamic teaching at the University of Southern Denmark enable you to get the best out of your study abroad. Whether you are learning a new language or doing research in science, the university puts the tools you need at your disposal.

Participate in dynamic teaching

In true Scandinavian tradition, students participate significantly in class and work in groups.

Delight in Denmark

Both SDU and Denmark have much to offer. Denmark is famous for its high quality of life, beautiful countryside, friendly people and cosy atmosphere.

Feel Welcome

The university does everything it can to make exchange students feel welcome. You can find help during the application process, as well as before and after your arrival.

This guide is just one of the many resources available to you. More information about the university and the exchange programme descriptions can be found on the website (www.sdu.dk/en). If you have any questions, please do not hesitate to contact SDU International (int@sdu.dk).

We hope that we can guide you along the road to the University of Southern Denmark.

A decision we guarantee you'll not regret!

All the best,
The Editorial Team

Become an EXCHANGE STUDENT

Student years are meant to be the most enriching and enjoyable years in life. They are a time of exploration and self-discovery, of new experiences and lasting memories.

Education is not restricted to the classroom. Life experiences and personal development are just as important as passing exams on the road to success. Combine all three with an Exchange abroad. See the World, make new friends, and broaden your horizons. Stand out and have an education and experience for life. What are you waiting for?!

Who are exchange students?

A student sent from a partner institution who studies one or two semesters at the University of Southern Denmark. The course credits are

to be transferred back to the degree studied in the home country.

Study possibilities

As an exchange student, you can study at one of our four campuses that offer courses in English: Odense, Kolding, Esbjerg and Sønderborg. The university offers a large number of programmes taught in English to exchange students. In addition, the Faculty of Humanities also offers courses taught in German and Spanish at bachelor and master level.

Reasons to do an Exchange at The University of Southern Denmark

Reason no 1

NOTHING TO LOSE, EVERYTHING TO GAIN. Home will always be there, no matter how far you roam. But when you return, you will be different. You will gain so much more than just an education.

Reason no 2

NEW PERSPECTIVES. You will meet new cultures and people with a very different background than you. You will make friends for life, and gain an international network you can use in the future. You will learn to cope with unfamiliar situations and learn a lot about your own tolerance, your insight and yourself.

Why do an Exchange IN DENMARK

Long white beaches. Island hopping. Easy travel around Europe.

Choose an exchange in Denmark and you will quickly find that the country has more to offer than you had ever imagined. Grasp the opportunity to study in Scandinavia's gateway to Europe and open up a world of possibilities.

A Happy Country

Time and time again the Danes come out on top of the World Happiness Index¹. Live here to experience why.

A Safe Country

People who have visited Denmark often emphasize how safe the country feels. Children walk to school on their own and even the Queen can be seen doing her own shopping with a minimum of security. The statistics confirm this image of Denmark as the country has one of the lowest crime rates in the world.

"Children walk to school on their own and even the Queen can be seen doing her own shopping"

Welfare State

Denmark is a highly advanced welfare state characterized by universal healthcare, free education and social security for all citizens. The country has a high degree of income redistribution facilitated by the tax system and the relatively small gap between rich and poor.

Equality

Freedom of expression and equality for all are part of the Danish philosophy. In 2014 Denmark was the 4th most gender-equal country in the world.

Health and Cycling

Everyone has a bike here! And it's used for almost every trip! It helps that the country is breathtakingly flat, so there are no hills to climb. Danes are also big fans of a balanced diet, with organic products being on top of the list when it comes to food priorities.

Hygge

The closest translation of 'hygge' is cosy, but it is so much more than that and has to be experienced. It could be time spent in good company, enjoying nice food, drinks and humour. It is a very important aspect of the Danish mentality.

Scandinavia's Gateway to Europe

Denmark's location makes it a gateway to other Scandinavian countries and the rest of Europe. Berlin is just an hour's flight away. London and Paris can be reached in less than two hours. And Barcelona, Rome, Vienna and Prague are all just a few hours flight away.

and Culture MSc

“Oh, it’s great! My advice to everyone is to go on an exchange abroad! It may be scary in the beginning, but it will change you forever”

Good to know about Denmark

Facts

The Kingdom of Denmark includes two autonomous countries in the North Atlantic Ocean: the Faroe Islands and Greenland.

Denmark is a small country, it consists of 406 islands and has 7314 kms of coastline.

POPULATION: 5,627,235 (2014)

CAPITAL: Copenhagen /"the most livable city in the world" 1,246,611 (2014)

Other major cities: Århus 259.754, Odense 172.512, Aalborg 109.092 (2014)

LANGUAGE: Danish with English as a second language.

CURRENCY: Danish Kroner, DKK
1 Krone = 100 Øre
(~1 EUR = 7,5 DKK)

COUNTRY DIALING CODE: +45

Education System in Denmark

The emphasis is on practise, building on theory

Group work is in virtually every course

Innovation is encouraged

International and dynamic learning environment

An innovative educational system of high international quality

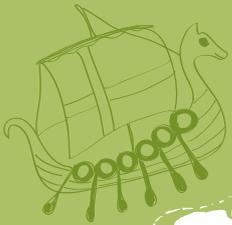

Direct contact with local business

Friendly atmosphere between students and teachers – no hierarchy

Over 600 programmes taught in English

It's free to do an Exchange there!

Reason no 3

EXPLORE EUROPE. You can explore while studying in Denmark, as Scandinavia's gateway to Europe, Denmark is close to historical cities such as Amsterdam, Berlin, London, Oslo and Paris.

Reason no 4

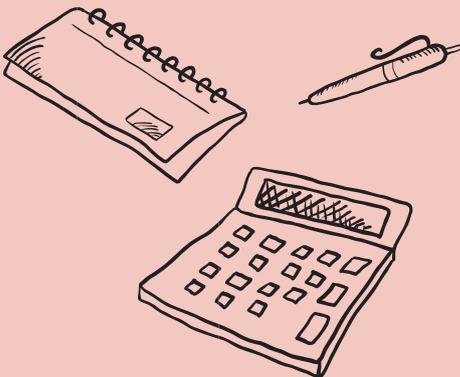

FREEDOM to travel without being questioned. It will not be as easy to travel when you are not a student.

The Erasmus STUDENT NETWORK (ESN)

The Erasmus Student Network (ESN) is the biggest student association in Europe. The mission of ESN is to create a more mobile and flexible education environment by supporting and developing student exchange. At the same time ESN also wishes to provide an intercultural experience to those students, who are not able to study abroad. ESN works in the interest of exchange students and wishes to improve the social and practical integration of exchange students.

ESN is not just for European students, but for all International Students. The main branch of ESN in Denmark is located on our main campus in Odense. It is run by both local and international student volunteers who work to enrich the exchange student experience by:

- Organising events, trips and activities for students – this includes many parties throughout the year, discounted trips to neighbouring cities, and the legendary Viking sea battle, where over 2000 students are on a cruise ship in the Baltic Sea.
- The Buddy program – experienced SDU students are matched with incoming students, to hand over accommodation keys, help them get settled in, and to show where all the best places in town are.
- Promoting mobility among local students – The exchange experience doesn't end with you coming to Denmark. It is an ongoing exchange of culture, language and fun.
- Involving international students in the local community by organising charitable, environmental and educational activities.

Reason no 5

LEARN A NEW LANGUAGE Or practice your English. Everyone speaks perfect English here, but you are encouraged to take the free Danish lessons to enhance your experience.

"It's totally worth it"

Andrea, Spain

Name: Andrea Sanz
Home Country: Spain
Study Programme: International Business and Marketing MSc

"I was an Erasmus student two years ago when I fell in love with Denmark and the Scandinavian culture, so when I had the chance to come back (for a masters) I did not have to think twice!

Getting to meet people from so many different places, to lose the fear of living alone, being independent, learning a new language... so many things that have made me improve as a person and broadened my perspective. Studying abroad is a bit like skydiving, at first you're completely terrified but it's totally worth it afterwards."

The University of SOUTHERN DENMARK

A truly international university. With over 500 exchange agreements around the world, SDU is truly an International University. 1 in 5 of our 30,000 students are not from Denmark, so you can find many nationalities in one class.

Academic excellence

The University of Southern Denmark is a modern institution offering education and research at the highest level. Every day 30,000 students build on the university's reputation as a centre of academic excellence.

First-class resources

E-learning and state-of-the-art laboratories offer you a vibrant learning environment where innovation and tradition go hand in hand.

Extensive contacts

Researchers and students work directly with industry and business thanks to the university's extensive regional, national and international network.

Social and leisure interests

By getting involved in the university's many extracurricular activities, you will enrich your experience abroad, settle in quickly and make friendships that last a lifetime.

Choice

With 5 campuses covering Denmark, you can choose what courses and location suits you best.

Learn hands-on

You have the freedom to use our high-tech laboratories 24/7, enabling you to put your knowledge to the test.

Work with the best

The university has several centres of excellence, chosen for pioneering research on a national and international platform.

Reason no 6

INDEPENDENT LEARNING Our study programmes encourage students to take on an active role in their education.

Students choose their project work topic and decide how to explore the subject. Project work allows students to develop strong analytical and problem-solving skills.

Students also learn how to search and process information. Normally conducted in small groups, project work offers students valuable experience in teamwork, communication and project planning. These skills are highly valued in today's workplace, where small teams are often required to work together to complete specific tasks.

The faculty OF YOUR CHOICE

Do you dream of white lab coats or old books? About saving lives or learning more about the world around you? Whatever sparks your interest, you will find the exchange programme of your dreams at the University of Southern Denmark

The Faculty of Engineering

If it is robots, screws and electronics that interest you, the Faculty of Engineering will be right up your street. And at the same time, you can raise your international profile with our state-of-the-art resources and strong global connections.

The Faculty of Business and Social Sciences

If the problems of the world and society around you are always on your mind, the Faculty of Business and Social Sciences can give you the education you need to construct a mature and up-to-date analysis of society. An extensive network of public and private institutions is directly based on research conducted at this Faculty.

The Faculty of Humanities

If you are into media, communication and language, you can combine new fields of

research and traditional study programmes at the Faculty of Humanities. Academics around the world are impressed with the Faculty's interdisciplinary approach and progressive research.

The Faculty of Health Sciences

If you dream of becoming more knowledgeable about the body and the prevention and treatments of diseases, you can gain practical and academic experience at the Faculty of Health Sciences, which works closely with Odense University Hospital, industry and experts worldwide.

The Faculty of Science

If you are interested in the origins of life, if you want to develop bio and nanotechnology, or like to learn about the natural world, from proteins to whales the facilities and leading international specialists are at the Faculty of Science to guide your curiosity.

ODENSE

With some 200,000 inhabitants, Odense is the third largest city in Denmark. Its name comes from Odin, chief of the ancient Viking gods. Odense was built around a sacred spot where Odin was worshipped more than 1000 years ago.

A Fairytale City

Odense is world-renown as the birthplace of Hans Christian Andersen. However it is also a modern town with a buzzing cultural and social scene.

With more than 30,000 students, the town has a lively and young atmosphere. The town lies in the centre of Denmark, serviced by two international airports, easily reached in less than 90 minutes by train or car.

A Festival City

Odense's festival diary is an impressive list of national and international events that attract well-known creative talents, artists and musicians of international standing to the city every year. They come to join the Hans Christian Andersen festival, film festival, the robot festival, the harbour festival the international blues festival and not to mention Tinderbox.

Nightlife

If you like to party, Odense has ample opportunity! From beer-pong tournaments to pub-quizzes and karaoke. There are even bars where they serve free beer during happy hour. As much as you like!

A Green City

Even if you are right in the centre of Odense, you will never be more than a five-minute walk away from a green oasis. Odense has no end of beautiful parks and gardens where you can laze about and enjoy a picnic on a warm spring day with friends and fellow students.

Odense has an agreeable blend of both green spaces as well as bustling areas for shopping, coffee and hangouts. The endless summer days usually end up in the expansive park area where there is often music and bbqs to fill the night with friends.

History and Art

If you want a more artistically advanced cultural experience, Odense is home to a fascinating history as told by its assortment of statues and museums throughout the city. There are many art galleries such as Brandt's, where changing exhibitions and activities will keep you busy throughout the year.

Campus city

SØNDERBORG

Sønderborg is located on the island of Als in the Southeast corner of Jutland, close to the German border. Sønderborg is ideally situated between Hamburg and Major centres of Denmark.

The university and cultural complex – Alision – is an architectural marvel situated at the harbour. Alision is a magnet for audiences seeking an experience out of the ordinary. The concert hall forms the venue for activities ranging from classical concerts to avant-garde music and rock. Due to its flexibility, lectures, conferences, fashion shows, opera, theatre and other cultural events are staged here. The municipality of Sønderborg has approximately 80,000 inhabitants and is keen to facilitate student life.

The large number of students living in Sønderborg lends the town a lively social life, with numerous cosy cafés with live music and a vibrant nightlife. The city's shops range from department stores to small, fascinating speciality shops. City life is diverse and cultural with a symphony orchestra, a theatre, cinema, musical festivals, and an arts centre devoted to art and culture.

Lots of activities

No matter what leisure activities you prefer, you are almost guaranteed to find a sports or activity club to suit your needs.

From parachuting to soccer, athletics, fishing, rowing, sailing, surfing, riding, handball, hunting, and golf of course. Nearby, you will find Danfoss Universe, a science and experience park full of exciting technology and fun-filled activities. If you love watersports, Sønderborg is for you!

Go sailing

Oxbridge on Alssund is a competition between students from the Sønderborg region, Kiel and Flensburg university. This spectacular sailing event takes place in 28-foot match race boats on Alssund in front of the new Alision complex. This event is easy to follow from convenient vantage points on the shoreline close to the sailing course.

Lots of beaches

Here you are surrounded by forest, fjords, coves and beaches – and Danish history is found everywhere. Not many places in Denmark are as rich in history as this small geographical area. Sønderborg castle, Dybbøl Mill and the battlefield history centre are examples of some of the many centres of interest in the area.

Reason no 7

LEARN A NEW LANGUAGE, or practice your English. English is the principal tuition language for exchange students, but you are encouraged to take the free Danish lessons. You'll be surprised how quickly you become bilingual.

Visit
www.visitsyddestsjælland.dk
www.dit-slagelse.dk

Campus city

SLAGELSE

(Currently no exchange available)

Slagelse has around 32,000 inhabitants and is West Zealand's largest shopping town with cosy and attractive squares and a lively café life. Copenhagen and Odense are within easy reach as there is excellent public transport (train and bus services) and the motorway is just outside town.

The Viking Age

Slagelse is one of Denmark's oldest towns, founded in the Viking Age with the Trelleborg ring fortress. A site that has at times been compared to Stonehenge with its mysterious construction and conspicuous location. Compared to other sacred Viking locations, King Harald Bluetooth's impressive ring fortress from the late 900s is the best preserved of its kind.

Culture and Sport

The town is well-known for its many leisure time and sports activities. You can explore an active cultural life with Slagelse Theatre, Denmark's largest amateur theatre "Krabasken" and Slagelse Music Hall. Within the field of sports, both the elite and the general public are well taken care of. Slagelse is especially renowned for its handball, badminton, hockey, gymnastics and golf teams and attracts big names from across

the different sporting disciplines. The town is also home to the Slagelse Gladiators which is a Danish American Football team.

Nice beaches

Southwest Zealand and the Great Belt Coast have 186 kilometres of beautiful coastline and lots of delightful beaches.

The beaches provide plenty of opportunity for swimming and are ideal for windsurfers and anglers. Many beaches are student hangouts in the summertime.

The Campus

The recently renovated campus shines as an achievement of an elegant blending of urban space with an educational institution. Campus Slagelse strives to cultivate an environment of connections with its many activities that bridge between the city's students, citizens, researchers, entrepreneurs and business community.

Campus city

KOLDING

Kolding is one of Denmark's friendliest towns – a large and small village rolled into one. The municipality of Kolding has more than 86,000 inhabitants, centrally placed in relation to the rest of Denmark.

Kolding is a university town and a commercial centre, with easy access via the motorway, buses and train services. Billund international airport is only half an hour's drive away from Kolding. The town is well-known for its dramatic history, its beautiful countryside, its rich and varied cultural life, as well as its thriving business sector.

In Kolding, there is something for everyone. If you are looking for culture, art and new experiences, visit Koldinghus castle or Trapholt Museum, but if rural surroundings are more for you, the town is situated in some of the most wonderful countryside – close to water, woods and beaches.

An atmosphere of past and future

Koldinghus castle forms a unique backdrop for the pedestrian streets that twist and turn through the central town. In between shops, you will find small peaceful oases of historical places, which offer rich and lively stories.

The Nicolai Block

Kolding's new culture block is established in one of Denmark's largest historical school complexes.

Nicolai contains a cinema, a café, an archive on local history, and a children's venue culture house with an adventure universe for children aged 2-12 years. The Nicolai theatre is a regular venue

for a number of orchestras and for orchestra and choir rehearsals. Nicolai arts & design houses professional artists and designers with workshops and exhibition facilities.

Trapholt and Koldinghus

Art, applied art, design and architecture have a long tradition in Kolding. The creative environment spills over into the cultural events in the area. Creating art has a high profile – not in the least by virtue of the museums at Koldinghus and Trapholt. Trapholt is the only museum in Denmark where there is modern art, applied art, design and furniture design. Dating back five centuries Koldinghus is made up of impressive, weather-beaten buildings housing a great hall, castle chapel, library hall and a gloomy dungeon. From the top of the giant tower there is a magnificent view over the town of Kolding and the castle lake.

Beaches

The beaches in the Kolding area lie directly in the magnificent setting of the Little Belt. The beaches have white sand, shallow water and many different possibilities. Some beaches have a natural playground, and some have beach volley courts. Some have bathing jetties, others have camp sites. Some have kiosk and toilet facilities, others are undisturbed beaches.

Campus city

ESBJERG

Esbjerg is Denmark's youngest big city with 115,000 inhabitants (Esbjerg municipality). Esbjerg is the place where unique nature experiences are combined with the pulsating life of the city and great sights and attractions.

In Esbjerg's backyard is the world UNESCO site the Wadden Sea national park, this is among the most valuable wetland areas in the world and of crucial importance for breeding birds, fish, marine mammals and plant life. Bike paths curve around the seafront and into parks. The oldest city in all of scandinavia, Ribe lies only 30 minutes from Esbjerg and was voted "Europe's best big time small destination" in 2014.

The harbour – a special experience

All year round you can experience Esbjerg harbour, which has a marina, restaurant, museum lighthouse ship and friendly cruises on board the cutters.

Take the ferry to Fanø which is a small island in the north sea for sandy beaches, the national park and great experiences out in the countryside. In the summer there are boat trips from the harbour in Esbjerg.

International taste

In the centre you will find an abundance of restaurants with Greek, Italian, Chinese, Indian, Argentine, Turkish and French dishes. Traditional Danish cooking is of course also on the menu – hot or cold. Try, for example, the world- famous open sandwiches (smørrebrød), a delicious fish dish, a slice of smoked hjerting salmon, or "bakskuld", a salted, smoked dab with

the skin removed, fried in butter – a local delicacy not to be missed!

Young and international

The beautiful concert hall of the East Jutland academy of music and dramatic arts, housed in a former turbine hall, eloquently expresses a concert life and a level of ambition that embrace both classical and modern art. Famous names from home and abroad appear often and gladly make use of the "live" city's facilities, which can match the best international standards.

Sports life

Swimming stadium Denmark has the country's finest water park and a 50 metre-long and 25 metre-wide competition pool.

Just a stone's throw away you'll find the athletics stadium and the city's football stadium, where Esbjerg plays premier league football. The stadium centre is also beautifully located in Esbjerg sports park, which is also home to two skating rinks, where there is plenty of room for both the elegant skating princesses and the tough guys of the ice hockey league. There is also a curling centre, tennis courts, badminton hall and cricket pitch.

As it's right on the sea, there are many water sport activities. Or you can just hangout on the beach as many students do!

Exchange Programmes

(Subject to change. Visit www.sdu.dk/en)

You can choose courses from any study programme offered at the university provided you have the prerequisites for the courses. Courses are offered in English at four campuses: Odense, Kolding, Esbjerg, and Sønderborg.

We recommend that you take all your courses at one campus.

If you are able to follow courses in Danish, you find information on these by looking at the information of the relevant programme at www.sdu.dk.

Reason no 8

IT COULD BE YOUR LAST CHANCE.

It's a big world, student years are a special opportunity to explore it. In a few years you could find yourself in a busy job, with no time to travel.

Information for EXCHANGE STUDENTS

Academic structure

The relationship between students and teachers in Denmark is quite informal. Both students and teachers like to consider one another equals. You are always encouraged to ask questions both inside and outside of the classroom and to express your opinion on the themes discussed during the courses. The informal atmosphere does not imply, however, that an overly relaxed attitude towards your studies would be accepted. On the contrary, the independent nature of university studies in Denmark presupposes that students show initiative and take responsibility in the planning of their studies and in keeping to their own schedules.

Students are expected to be able to analyse and discuss material, both in class, in group work and in the final examination. Most studies make use of both oral and written exams.

Academic system

Bachelor level = undergraduate (3 years or 3,5 Years) = 180 or 210 ects credits

Master level = graduate (2 years) = 120 ects credits on top of the 180/210 ects credits from the bachelor level

Academic calendar

Autumn semester: classes normally start September 1 and run to mid December. Exams can be held as late as January 31st.

Spring semester: classes normally start February 1 and run to mid May. Exams can be held as late as June 30th.

Admission requirements

You must meet the entry requirements for the courses you wish to take, meet the application deadline and enclose all relevant documents. To follow courses at master level, you must have completed what compares to 180 ects credits within a relevant field.

Language requirements

A good standard of English is required because teaching at the university typically involves student participation, class discussions, project work and student presentations.

This means that you must have a command of the English language equivalent of the IELTS score of 6,5 Or the TOEFL score of 575/239/88. We ask you and your home university to document your English skills through our language requirement form (available during application).

Arrival

You must arrive in time for our orientation days which take place a few days before the semester starts. In rare circumstances we accept late arrivals on request.

Accommodation

All five campuses guarantee accommodation for students from partner universities if we have received a complete application by our application deadline (by May 1 / November 1). More information can be found at: www.sdu.dk/en

Contact

Tel: +45 6550 2264

Email: int@sdu.dk

www.sdu.dk/en

Living costs in Denmark

Rent in Denmark costs on average 2,200 – 3,000 dkk per month, with groceries costing around 2,000 – 2,500 dkk per month, depending on your lifestyle.

A monthly budget might be:

Between 4,500 dkk to 7,000 dkk.

10 Danish kroner are equivalent to € 1.34.

Orientation day

A few days before classes start each campus has an orientation programme for new exchange students. During these days students are introduced to the university in general and the relevant faculty.

Ects credits

A full semester workload equals 30 ecto credits. Two semesters equal 60 ecto credits. Master courses often count as 10 ecto credits, i.e. a third of one semester. Master students typically have 10-15 teaching hours per week. You are expected to take a full workload during your stay at the university, including exams. Ects = european credit transfer system.

Danish language courses

You can sign up for Danish language courses at language schools in town. These take place during the semester.

Tuition

Exchange students do not pay tuition.

Application deadlines

If you are a non-EU/EEA citizen, you have to apply earlier than EU/EEA citizens to have enough time to apply for residence permit. It takes up to three months for Non-EU/EEA citizens to get a residence permit

Autumn semester

April 1: Non-EU/EEA citizens

May 1: EU/EEA and Swiss citizens

Spring semester

October 1: Non-EU/EEA citizens

November 1: EU/EEA and Swiss citizens

Reason no 9

EMPLOYABILITY. “International Experience” is more frequently being asked for in job descriptions. By being an Exchange Student in Denmark, you will equip yourself with a range of skills and experiences that will increase your employability. You will have the ability to work independently and work in groups, while gaining a much sought after International Profile.

The process of becoming AN EXCHANGE STUDENT

Autumn/spring

- 1) your home institution nominates you.
- 2) you submit your online application with all required enclosures and online application for accommodation, before the relevant application deadlines.
- 3) your application is assessed. If the assessment is successful, you receive our enrolment pack containing our online enrolment email, and information on

various practical matters in the course of May/June or November/ December.

July-August/ December-January

- 4) you receive information on accommodation in July/December, or at the beginning of August/ January (if you applied for accommodation through the university).
- 5) end of August/January, each campus has an orientation programme for all new students.

September/ February

- 6) the semester and classes start September 1/ February 1.

Make sure to read the general entry requirement and any possible specific entry requirements of the courses you would like to follow. Specific entry requirements are listed under the course information or course package information.

Reason no 10

ENJOY IT! You're abroad for a good time, not a long time!

Reason no 11

NEW FOOD. Maybe you don't like pickled herring, but how do you know unless you try?

Reason no 12

SAFE COUNTRY. Denmark is one of the safest countries in the world, as indicated by the low crime rate.

Name: Mingle
Home Country: Lithuania
Study Programme: Bachelor
in Economics and Business
administration

“I definitely encourage everyone that is in doubt or feels afraid to leave their home country. It is tremendous experience, a chance to become very open-minded, to grow as a personality and get one-step closer to what you imagine yourself in the future.”

How to APPLY

At SDU International (int@sdu.dk), you can get help with practical matters. SDU International is engaged in sending and receiving students.

At present the University cooperates with more than 500 universities within various Nordic and EU programmes (Nordplus and Erasmus+) as well as other bilateral agreements.

- Fill in the online form, found at www.sdu.dk/en
- Upload all required enclosures to the online application form. Do not send them by email or ordinary mail.
- Upload language requirement form (paper form: print out, fill in, scan and upload)
- Apply online if you wish for SDU to find accommodation for you.

You could also come to Denmark as a fee paying Guest Student, where you will have greater freedom to choose your own study path.

More information about becoming a guest student can be found at www.sdu.dk/en

In Odense, our main campus, there is an Erasmus Student Network / ESN group which organises events at least once a week for both international and Danish students. As an exchange student, you can expect to enjoy invitations to these events, as well as the social events organised by your course group and your student guidance counsellor.

Reason no 13

The Erasmus Student Network (ESN).

Reason no 14

THE DOWNSIDE is having to leave, with all the friends you've made, the goodbye is the hardest thing about an exchange.

Reason no 15

WE WELCOME YOUR PERSPECTIVE! The more diverse our International Environment, the more enriching the student life is for everyone. Your culture, language, personality and perspective are welcomed.

Residence AND WORK PERMIT

Any student studying for more than three months in Denmark must apply for a residence permit. Special rules apply to Nordic citizens. If you are a citizen of the EU or the EEA countries, you must apply for your residence certificate once you have arrived in Denmark.

If you hold a non- EU/EEA citizenship, you must apply for residence permit through the Danish Embassy or Consulate in your country before you go to Denmark.

If you come from outside Europe you must apply at least three months before the semester starts to get your residence permit in time. A student residence permit allows you to work 15 hours a week. For more information visit: www.newtodenmark.dk.

Do's and don'ts

- Do signal when stopping and turning on a bike. Always!
- Do not greet a Dane with a kiss on the cheek!
- Do take a number at the post office/bakery
- Do not show up early or late when invited
- Do dress casually unless stated otherwise
- Don't be alarmed about unisex toilets!
- Do not ask "what is the occasion?" when presented cake (no need for a reason is the answer!)

Don't leave home without:

- Google translate app
- Passport photographs (you'll need when applying for residence)
- A check up at the Dentist, it is expensive in DK
- Gloves, hat, scarf (winter)
- Flip flops, shades (summer)
- Pen
- Rainclothes, even if the sky is blue – you would not believe!
