Chulalongkorn University

Chulalongkorn University was established in accordance with the Royal Proclamation of 1899 decreed by King Chulalongkorn on March 30, 1899 to reform the Royal Guard Regiment. The most significant point of the royal proclamation was to require the Royal Guard Regiment to provide education to young men that would equip them to perform civil service work, as well as to conform to the royal policy aimed at impartially providing freedom and equality in education to all Thai citizens.

After its establishment by King Chulalongkorn, the institution was elevated to the status of a university by his son, King Vajiravudh, who named it after his father. The university, as the country's first institution of higher learning, has surmounted obstacles and incorporated numerous major changes to make it the strong and progressive school it is today. In Thailand Chulalongkorn University has always been the national leader in education and knowledge creation through research. It has done this while also setting the standard for ethics, integrity and social progress. Today the reputation of Chulalongkorn University has spread well beyond the borders of the Kingdom so that it is widely recognized as **"A World Class University"**.

Chulalongkorn Business School

Since its inception in 1940, the Faculty of Commerce and Accountancy, or internationally known as the Chulalongkorn Business School, has become a world leader in producing high quality graduates that will be successful in and contribute greatly to the Thai as well as international business communities. Graduates are employed in the private as well as public sectors as well as non-profit enterprises. Grounded in strong theoretical as well as practical knowledge, the school is dedicated to producing individuals that excel in business decision making as well as ethical behavior. Currently, there are approximately 2,500 undergraduate and 1,500 graduate students enrolled in five departments, taught by a faculty of nearly 150 full time and visiting academics.

Our BBA International Program

The Bachelor of Business Administration or BBA International Program was established in 1996 to demonstrate educational commitment to Thailand, the Asia-Pacific region and the global community. The BBA International Program was the first undergraduate program taught entirely in English at Chulalongkorn University. The program is rigorously selective and designed to provide students with academic and professional "business tools." Chulalongkorn University, as well as its BBA International Program, is consistently ranked as one of the best undergraduate and business programs in Thailand.

BBA International Program produces graduates in one of two specific areas of concentration:

1. The International Business Management major. This major has three fields of study: Financial Analysis & Investment, International Business, and Brand & Marketing Management. These fields of study focus on understanding trade development and the diversity of culture, and effective and competitive management in these environments.
2. The Accounting major. This provides students with extensive knowledge of international accounting practices for modern business management.

Students in both majors have abundant opportunities to interact with international students and they can select to intern with multinational firms or organizations. In addition, BBA students can fulfill some required courses by spending time abroad as exchange students, or by selecting a study tour arranged by the Program.

Student Exchange Program

The Student Exchange Program allows international students from our partner institutions around the world to study at the BBA Program for a semester or a year by paying tuition fees to their home university. Students will be exempt from paying tuition fees to Chulalongkorn University during the exchange period. This will allow students to take classes here and transfer credits back to their schools.

Online Nomination by Exchange Coordinators

The exchange coordinator of the home university will receive an email regarding the online nomination and application process from the exchange coordinator of the BBA Program.

Deadline for Online Nomination & Application

- Fall Semester : April 30
- Spring Semester : September 30

Online Application by Students

After nomination has been submitted, students will automatically receive instruction for application by email. They are required to fill in an online form. The following supporting documents are required to upload:

1. Color photo (white background, white shirt and not showing teeth if possible).
2. ID page of the student's passport.
3. Recent academic transcript (with English translation if applicable).
4. Proof of the English language proficiency (required only a non-English native speaker).
