ENGLISH COURSE OFFERING

HORIZON
SUMMER 2019

WELCOME TO HTW BERLIN

HTW Berlin is the youngest publicly funded university of applied sciences in Berlin. Thanks to a wide range of attractive study programmes, experienced researchers and a highly motivated administrative team, it has established itself as one of the biggest and most diverse universities of applied sciences in Germany. More than **13,000 STUDENTS**, **270 professors**, **800 FREELANCE LECTURERS** from business and industry, and **450 STAFF** employed in service, administration and scientific projects work together hand in hand to deliver excellence in teaching and research.

HTW Berlin operates two attractive **LOCATIONS** in close proximity to each other:

THE WILHELMINENHOF CAMPUS in Oberschöneeweide and **THE TRESKOWALLEE**

CAMPUS in Karlshorst. The Wilhelminenhof campus is a former industrial complex with a long tradition as a centre of innovation, having played a significant role in the history of Allgemeine Elektrizitätsgesellschaft (AEG) and later Kabelwerke Oberspre (KWO). Its conversion into a modern knowledge hub was one of the major investment projects of Berlin's higher education development plan and marked a new chapter in successful urban development. The Treskowallee campus boasts modern facilities shaded by a leafy canopy courtesy of the area's beautiful old trees. The Auditorium Maximum (Audimax for short) is one of the last grand halls of East Berlin from the 1950s. It was refurbished in line with monument protection requirements and can be used for joint activities with regional business partners and for fairs, conferences or exhibitions.

AT YOUR SERVICE

Life as a student isn't all about lectures and exams. Before and during the official start of the semester, the International Office organises a two-week introductory programme. This includes information events, cultural activities and an intensive German language course.

WELCOME WEEKS

At the beginning of each semester two compulsory introduction weeks are organized for all new exchange students. They will be introduced to HTW Berlin, receive important information about studies, Health Insurance, VISA service or students residence and have the opportunity to attend the activities organized by the Local Erasmus Initiative.

Events and Activities:

- Buddy Program
- Trips
- Sports
- German Intensive Course
- Sightseeing Tour
- Welcome Party

THE LOCAL ERASMUS INITIATIVE - LEI

The Local Erasmus Initiative (LEI) is a group of HTW students, who organize events to meet students from other countries and make new friends. It will help each exchange student to successfully manage the semester abroad at HTW. Every semester they take care of about 130 international exchange students and offer them a wide program of events.

Electrical Engineering (Bachelor)

	Type	ECTS
Advanced Control Engineering	Project	5
Project Health Technology	Tutorial	10
Plant Engineering and Construction	Tutorial	5
Project Laboratory in Sciences and Technology	Tutorial	2
Research and Development Laboratory	Tutorial	2
Electronics	Project	5
Scientific Writing with LaTeX	Tutorial	2
German Language Course	Tutorial	4
		<hr/> 35

Environmental Engineering and Sustainability (Bachelor)

	Type	ECTS
Sustainable Building Technology	Lecture	5
Project Laboratory in Sciences and Technology	Tutorial	2
Biomass and Waste Utilization	Tutorial	5
Research and Development Laboratory	Tutorial	2
Electronics	Lecture	5
Scientific Writing with LaTeX	Tutorial	2
German Language Course	Tutorial	4
		<hr/> 25

Architecture Engineering Construction and Operation (Bachelor)

	Type	ECTS
Project Management	Tutorial	5
Human Resource Development and Change Management	Tutorial	6
Cost and Controlling in Facility Management	Tutorial	5
Business Process Management	Lecture	5
German Language Course	Tutorial	4
		<hr/> 25

International Business (Bachelor)

	Type	ECTS
Business Ethics	Lecture	5
Business Simulation	Lecture	5
Introduction to Business	Lecture	5
Introduction to Economics	Lecture	5
International Business - Law 1	Lecture	5
Business Mathematics	Lecture	5
Financial Accounting	Lecture	6
Macro-Economics	Lecture	5
International Business - Law 2	Lecture	5
Statistics	Lecture	5
Marketing	Lecture	5
Cost Accounting	Lecture	5
Corporate Finance	Lecture	5
Project Management	Lecture	5
Applied Statistics	Tutorial	5
Intercultural Management	Tutorial	5
Managing Organisations	Lecture	5
Management Accounting	Lecture	6
International Management	Lecture	5
Innovation Management	Lecture	5
Regional Studies	Lecture	5
Human Resource Management	Tutorial	5
International Marketing	Tutorial	5
Financial Markets, Institutions and Investment	Tutorial	5
International Economics	Lecture	5
Company Taxation	Lecture	5
Information Management	Lecture	5
German Language Course	Tutorial	4
Service Learning – Intercultural Learning and Experience	Lecture	2

Industrial Design (Bachelor)

	Type	ECTS
Short Term Project Industrial Design	Project	5
Universal Design Thinking and intercultural competences	Lecture	6
Long Term Project Industrial Design	Project	10
German Language Course	Tutorial	4
		<hr/> 25

Fashion Design (Bachelor)

	TYPE	ECTS
Collection Project Knit Design	Project	10
Collection Project - Design Team e.g. Women's Fashion, Men's Fashion	Project	10
Knitwear Design	Tutorial	5
German Language Course	Tutorial	4
		<hr/> 29

Electrical Engineering (Master)

	Type	ECTS
Advanced Control Engineering	Tutorial	5
Project Electrical Engineering	Tutorial	15
Plant Engineering and Construction	Tutorial	5
Project Laboratory in Sciences and Technology	Tutorial	2
Research and Development Laboratory	Tutorial	2
Electronics	Lecture	5
Scientific Writing with LaTeX	Tutorial	2
German Language Course	Tutorial	4
		<hr/> 40

Every year, HTW Berlin is pleased to welcome over 300 exchange students from all around the world. Some students come for a semester to Berlin, others are extending their stay with an internship in a company, and HTW Berlin also offers several double degree programs for international students.
